

# AIM RECON (SCHID=09 or SCHID=03)

## **FREQUENCY**

The purpose of this series is to report on Medicaid eligibility for all ICES individuals. A file is produced for AIM & reports are generated for state personnel. This series runs with two different SCHIDs.

This schedule runs as SCHID=9 on a monthly basis from January to October each year. Each month one partition is processed:

- January (CEPDE700 - partition 1)
- February (CEPDE701 - partition 2)
- March (CEPDE702 - partition 3)
- April (CEPDE703 - partition 4)
- May (CEPDE704 - partition 5)
- June (CEPDE705 - partition 6)
- July (CEPDE706 - partition 7)
- August (CEPDE707 - partition 8)
- September (CEPDE708 - partition 9)
- October (CEPDE709 - partition 10)

In November, the schedule runs as SCHID=3 processing all 10 partitions. Since EDS needs two days to process the annual run, we typically schedule this the weekend of Veteran's Day (if on a Friday or Monday) or Thanksgiving. There is no AIM Recon processing in December.

Please review the flow diagram for a complete list of jobs in this schedule.
